The Stock Market and Its Variations.

MONEY ABUNDANT.

Gold, Government and Railroad Securities Firm.

WALL STREET, MONDAY, Jan. 26-6 P. M.

The tendency of the stock speculation to-day, except with reference to one or two securities which have suddenly obeyed what are alleged to be "natural causes of improvement," as, for inatance, Michigan Central and Delaware and Lacka-wanna, is not encouraging. A yielding movement is observable. Even in the face of the promises of St. Paul with reference to a dividend some time this week that stock has dropped more than one per cent. Nor are other fancy shares obeying with their usual sympathy and promptness the I gas of immediate strength. Impetus is evidently wanting. The manipulators are not on hand. The banks are full of money; call loans can be made on excellent terms, but somehow the favorite stocks, which only a few days ago set all the street wild with expectation, refuse to stir. The condition illustrates the doubt which we have often described. To illustrate:-Western Union opened at 76%, moved to 77, receded to 76% and closed at 76% a 76%. Pacific Mail was the object of much rumor, but showed little change, ranging from 41% a 41% to 41% a 41% a 41% at the close. New York Central began work at 103%, sold up to oi 4% per cent on the st price. St. Paul moved downward from 48 to 46%, recovered to 47 % and closed at 47 %; the preferred stock sold at 72%. Union Pacific sold at 35% a 35%, declined to 34, but at the end was again steady at 85 % a 35 %. Lake Shore started at 82, advanced to 82% a 82% a 82%, with considerable fluctuation between these figures, and finished at 82%. among the leading shares. Wabash declined from 54 to 53%, subsequently moved to 54% and closed at 54. Ohio and Mississippi changed from 84% to 33%, but railled to 34% a 34%. C., C. and I. C. was generally steady at 31% a 31%, the close being made at 31%. Delaware, Lackawanna and Western was more than usually speculative and advanced from 102% to 104%, the interests of the coal strike having not a little to do with its movement. Michigan Central opened at 86%, but suddenly developed a strength that carried it to 92%, although the close was at 1% per cent off. Harlem was steady at 125. Northwest common called for was steady at 125. Northwest Common 50% a 60% a 60% a 60% a 60% in Mark a 102%; New Jersey Central, 300% a 102%; Hannibal and St. Joseph, 32% a 31%. GOLD to-day was generally steady, and unattended

to-day was generally steady, and unattended 2500 by much speculative demonstration. The opening 1000 was at 111%, the highest price 111%, the lowest 111%, and the close at 111%. The carrying rates were 5, 4 and 6 per cent. OPERATIONS OF THE GOLD EXCHANGE EANK TO-DAY,

 MONEY was abundant to-day at rates ranging from 4 to 6 per cent. The banks find not a little difficulty in placing loans, and large amounts were left over. Commercial paper is quoted as heretofore from 6

were strong and higher. The investment demand shows improvement nearly every day, and the natural result of good management, economy and increased earnings on the older lines is exhibited in the attraction which draws to this class of securities so much of real money., We note the
